

***Terra Bella Technologies Inc.  
Private Remote Sensing System License Summary of SkySat-1 and SkySat-2***

On 20 April 2010, the Commercial Remote Sensing Regulatory Affairs office of the National Oceanic and Atmospheric Administration, an agency of the Department of Commerce, granted a license to Terra Bella Technologies Inc. a wholly-owned subsidiary of Google Inc. to operate the private, commercial, space-based, remote sensing system named “SkySat-1 and SkySat-2”

SkySat-1 and SkySat-2 are commercial, electro-optical Earth observation satellites, licensed to collect sub-meter resolution panchromatic and multispectral images. The satellites will operate in near-polar, circular, low earth orbits (approximately 450 km).

The Licensee for SkySat-1 and SkySat-2 is:

Terra Bella Technologies Inc.  
1061 Terra Bella Avenue  
Mountain View, CA 94043  
(650) 961-1212
